

SOUTHERN RAILWAY HAS TURNED THE CORNER

Reports No Longer Show Decrease as Compared With Same Period of Last Year.

BIG SUMS FOR IMPROVEMENTS

Turn in Earnings Carries Out Prediction Made Last Summer by President Fairfax Harrison—Comparative Statement Is Issued.

The estimated earnings of the Southern Railway for several weeks during October showed an increase over the totals for the same periods last year. Up to these weeks in October the earnings of the Southern had shown a decrease for practically every week during the last year, following the outbreak of the war in Europe.

For the fourth week in October the estimated earnings were \$1,948,124 as compared with \$1,749,494 last year, an increase of \$208,630. A complete statement of the revenues and expenses of the road for October will be available for several weeks.

The turn in the revenues of the Southern during October follows the prediction made in Richmond in August by President Fairfax Harrison, who said that he did not expect a considerable improvement until autumn. Mr. Harrison at that time expressed the belief that the passing of summer would see a revival in business conditions in the South and the earnings of the Southern reflect this improved condition.

SOUTHERN SPENDS LARGE SUM FOR MATERIALS AND LABOR

During September, 1915, the Southern Railway Company disbursed for labor, material, supplies and other purposes \$4,125,787, of which \$3,596,518, or 87.2 per cent, was paid to individuals and industries located in the South. This amount represents more than 90 per cent of the money paid to the company for transportation by those located on the lines, according to figures announced by Comptroller Plant. The comptroller shows the results of operation of the company for the month of September, 1915, and for the first three months ended September 30, 1915, compared with the same month and period in 1914 and 1913, exclusive of interest, rentals and other income charges. The comparison with 1913 is made for the reason that in 1914 the effect of the business depression was reflected through the revenues of the company.

The figures are as follows: Gross revenue, September, 1915, \$5,616,924, as compared with \$5,194,197, or 1.95 per cent, and as compared with 1913 of \$5,293,595, or 6.55 per cent. Operating expenses, taxes and uncollectible railway revenues September, 1915, \$2,693,812, a decrease as compared with 1914 of \$2,824,910, or 11.91 per cent, and as compared with 1913 of \$2,539,591, or 12.66 per cent.

In addition to the foregoing operating expenses, the company spent in September, 1915, for improvements to its roadway and structures \$152,637.02, as against \$791,789.49 during September, 1914, and \$275,505.70 during September, 1913.

Corresponding results for the three-month period ending September 30 are as follows: Gross revenues this year, \$16,140,461, a decrease as compared with 1914 of \$72,454, or 1.31 per cent, and as compared with 1913 of \$1,110,463, or 6.99 per cent.

Operating expenses, taxes and uncollectible railway revenues this year, \$11,552,254, a decrease as compared with 1914 of \$1,824,208, or 15.72 per cent, and as compared with 1913 of \$1,372,414, or 10.46 per cent.

In addition to the foregoing operating expenses, the company spent during the three months of this year for improvements to its roadway and structures \$1,501,479.91, as against \$1,629,927.33 during the same period in 1914, and \$1,155.33 during the same period in 1913.

Stanley Seems Safe. Not Enough Votes Left in Dispute in Two Counties to Change Result.

LOUISVILLE, KY., November 6.—Tabulation of official returns from two additional counties today reduced the previously reported unofficial majority of 611 votes for former Congressman Augustus O. Stanley, Democrat, over Edwin P. Morrow, his Republican opponent in the contest for Governor of Kentucky, to 562.

Official returns from Tuesday's election from 115 counties of 429 in the State have been received and counted. There is little prospect of the certified vote of the remaining two being reported before Monday.

In the two counties yet to be heard from the number of votes in dispute is not large enough to wipe out Mr. Stanley's majority.

12,000,000 FUGITIVES

Those From Poland, Baltic Provinces, Lithuania, Volhynia and Bessarabia Go to Russia.

WARSAW, November 6.—The "Kurier Lwowski," a Polish daily paper of Lwow, reports that 12,000,000 fugitives from Poland, the Baltic provinces, Lithuania, Volhynia and Bessarabia have been transported into the interior of Russia. Among them are over 2,000,000 fugitives.

As the railroads were closed for military purposes, the fugitives, mostly elderly men, women and children, had to march hundreds of miles through primeval forests and swamps. On their long marches they had to sleep in the open air, in the most inclement weather, and thousands died from exposure or lack of food.

About 1,000,000 of the fugitives reached Nish, in Yugoslavia, but they were not permitted to enter the city and are now camping on the plain before it. In Smolensk there are 60,000 men, women and children who refuse to continue their march into the interior and cannot be sent on to the railroad as the government has to care for their transportation.

Up to an early hour this morning the police reported they had no details of the robbery, and did not know the value of the articles stolen. The robbery occurred sometime between 7:30 and 9 o'clock. Report of the robbery was made first to Police Headquarters, which in turn notified the Second Police Station. It is said that the robbery was one of house-breaking, and that it was referred back to Headquarters for investigation.

LYNCHBURG ASSESSMENT MAKES GOOD SHOWING

LYNCHBURG, VA., November 6.—The assessed value of personal and realty in Lynchburg this year aggregates \$40,000,000, and it is remarkable, tax experts say, that there is only a difference of about \$90 in the two assessments, the balance being in favor of the city.

The new realty assessment gives the city values taxable of \$19,300,000, and the last assessment by the State Corporation Commission on railway rights of way aggregated \$1,700,000, giving a total of \$21,000,000. The tangible and intangible personal assessment this year aggregated \$11,623,167. Merchants' capital amounted to \$6,824,353, and the \$2,542,297 assessment on bank stocks brings this phase of the city's revenue producers up to just a little more than \$21,000,000.

It is hardly probable that any other city in the State can make such a showing outside of Richmond and Norfolk.

PARTRIDGES PLENTYFUL BUT IT'S TOO DRY TO HUNT

LYNCHBURG, VA., November 6.—Although partridges are reported to be unusually plentiful, hunters who have been afield since the season opened in several nearby counties have returned with very meager bags. The lack of rain and the abundance of late vegetation in the fields is given as the reason for poor success.

The killing frosts of Thursday night will relieve the fields of much undergrowth, and then a rainy season would make hunting conditions ideal.

The shooting of partridges is lawful now in Prince Edward, Charlotte, Halifax, Buckingham, Albemarle, Craig and Amherst. It closed after six days' season today in Floyd County and will open Monday a week in Nelson, Bedford, Pittsylvania and Alleghany. Other counties to open in December are Campbell, on the 1st, and Montgomery, on the 5th.
